in-Ceiling design speakers

XSCACE

Aster 6 – LCR

Introducing our angled LCR ceiling speaker, Aster 6, with a movable tweeter and high power, designed to deliver outstanding sound quality and versatility. The speaker is engineered to project sound at an angle towards the listening area, providing a more immersive audio experience. The movable tweeter allows for optimal sound dispersion and can be aimed towards the listener's preferred location. With a high power rating, this speaker is capable of delivering ample volume and dynamic range, making it a great choice for larger spaces. The speaker's superior design features premium materials, ensuring maximum durability and long-lasting performance. Overall, this angled LCR ceiling speaker is an excellent option for anyone seeking exceptional sound quality and flexibility in their home audio setup.

Hear music that is true to the artist's intent.

"Although being understated and minimalistic," Aster 6 - LCR speakers use the latest state-of-the-art technology to create an impeccable sound performance.

Aster's frequency range is comprehensive, covering deep, resonant bass to distinct and elaborate high notes, rendering them ideal for all music genres. The speakers are highly sensitive and can handle significant power, assuring that your music will be conveyed with accuracy and force.

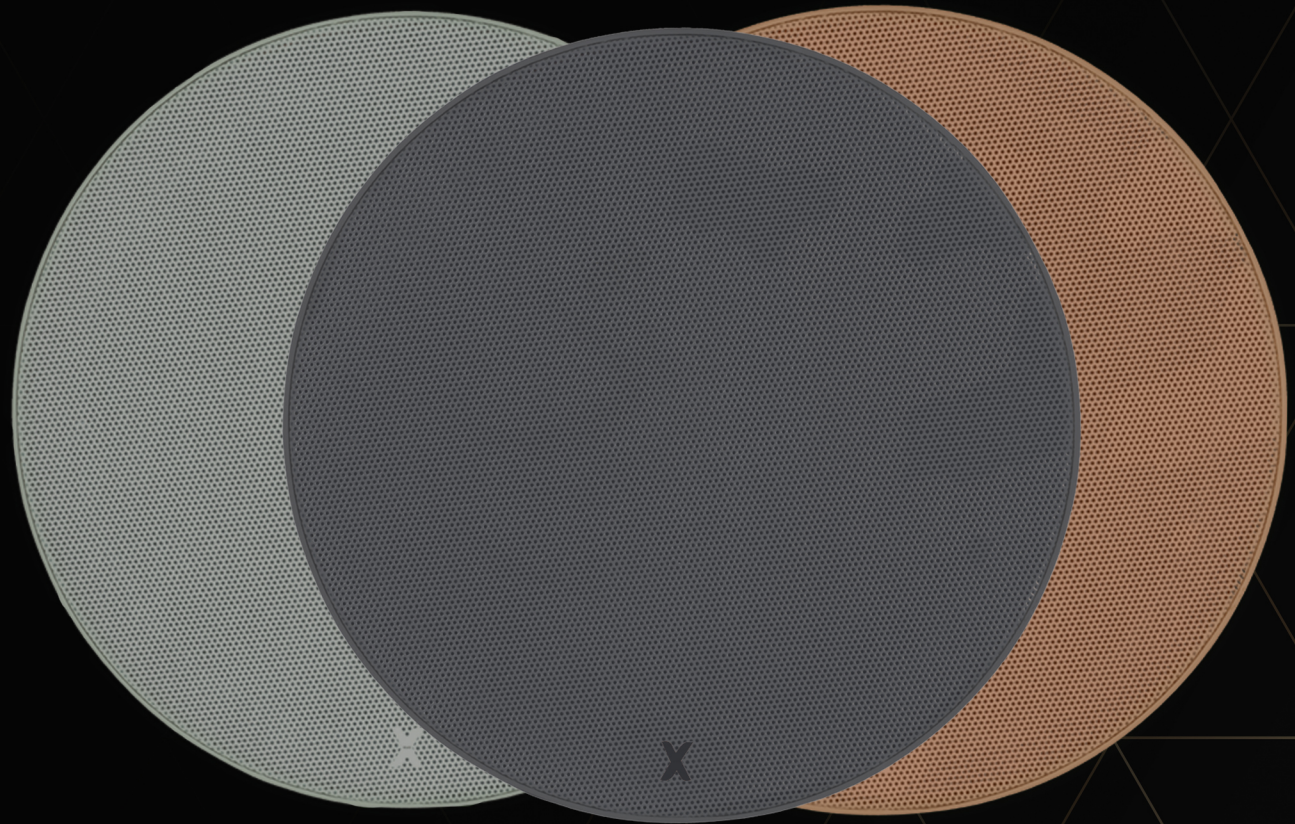

Each speaker is handcrafted with the finest materials and features a custom color option to perfectly match your decor

Blends Perfectly with Your Home

Custom Painted Grill to match your decor

Each speaker is handcrafted with the finest materials and features a custom color option to perfectly match your decor. Our thin bezels and flush-mount brackets offer a smooth, minimalistic finish; your speakers will blend in wherever they are positioned.
