

CAMPHOR 8

Outdoor design speakers

XSCACE

Camphor 8

From the heart of the wilderness, the Camphor outdoor speakers emerge, a testament to the beauty and power of nature. With their built-in bass radiator, they produce a mesmerizing sound that captures the essence of the outdoors. Their versatility allows them to double as PA speakers, lending their majestic voice to any occasion. Let the Camphor outdoor speakers be your trusted companions on your journey to audio perfection, as you embrace the beauty of sound in all its forms.

Weather Proof IPX66

Hear music that is true to the artist's intent.

"Although being understated and minimalistic," Camphor 8 speakers use the latest state-of-the-art technology to create an impeccable sound performance.

Extremely Tough.

Tested to withstand temperatures between -20 and 185 degrees Fahrenheit, XSCACE Landscape speakers can handle the elements and still deliver a crisp, natural sound. They even feature a shape and colour designed to blend seamlessly into any environment. These durable speakers use quality components like a high-temperature voice coil and silk dome tweeter to deliver great sound no matter the circumstance..
